

Vision Match™ Report

Personalized Vision & Lifestyle Assessment

1. Patient & Report Information

Name	[Customer Name]
Date of Birth / Age	[DD/MM/YYYY] / [XX yrs]
Report Date	2025-09-24
Generated by	SeQura Vision Match™ AI
Referring Optician / Clinic (if known)	[Clinic / Doctor]

2. Executive Summary

Based on your responses in the Vision Match™ about your vision habits, lifestyle, and preferences, this report provides:

- A summary of your likely vision requirements
- Recommended additional eyewear types
- Precheck health/risk indicators
- Style preferences and next steps

This summary is meant to guide your optician and help you make informed decisions.

3. Current Usage & Symptoms

- Current glasses type: [Single vision / Progressive / None / Other]
- Usage patterns: [Reading / Screens / Driving / Outdoors / All day]
- Comfort / strain feedback: ["Eyes feel dry," "Headaches after 2h screen," etc.]

4. Lifestyle Profile & Key Demands

Aspect	Your Profile
Screen time	~ X hours / day
Outdoor / Sun exposure	High / Medium / Low
Driving (night)	Yes / No
Active / sports use	Yes / No
Additional notes	[Any remarks]

Likely stress zones needing correction:

- Digital eye strain from screens
- UV / glare outdoors
- Visual transitions (indoor ■ outdoor)
- Focusing shifts (near / middle / distance)

5. Recommended Eyewear Strategy

Based on your profile, you may benefit from a combination of:

1. Everyday / All-purpose glasses – baseline prescription
2. Prescription Sunglasses – UV/glare protection
3. Blue Light / Screen glasses – digital device use
4. Special-use pair – driving / sports / reading

Vision Plan benefits (optional):

- 2–3 pairs tailored to lifestyle
- Free lens updates when eyesight changes
- One new frame per year included
- Monthly fee starting at 14€/month

■■ This report helps you make an informed decision. It is not designed to sell products you don't need.

6. Health Indicators & Pre-Check Notes

■■ Informational only — not a diagnosis. Must be confirmed by optician/eye doctor.

- Age 40+ → presbyopia risk
- High screen time → digital eye strain risk
- Night driving → possible anti-glare need
- Dry-eye symptoms or frequent prescription changes → may require medical check

7. Style & Aesthetic Preferences

- Frame shapes: [Round / Rectangle / Aviator / Cat-eye / Minimalist]
- Colors: [Black / Tortoise / Clear / Mixed]
- Occasions: [Professional / Casual / Sports / Formal]

8. Next Steps & Action Plan

1. Bring this Vision Match™ Report to your eye care provider.
2. Free extended eye exam if you choose an optician from the list below.
3. Review and refine lens options with your optician.
4. Decide whether to add another pair of glasses, enroll in Vision Subscription Plan, or simply complete the exam — no strings attached.

9. Notes for the Optician / Eye Doctor

This report is a summary of patient's self-reported needs and preferences. Please use it as input for examination and prescription validation. Confirm any health or risk indicators with proper testing.

10. Vision Match™ Summary (Quick Reference)
